

Some Bonus Features

1) Some Bonus features:

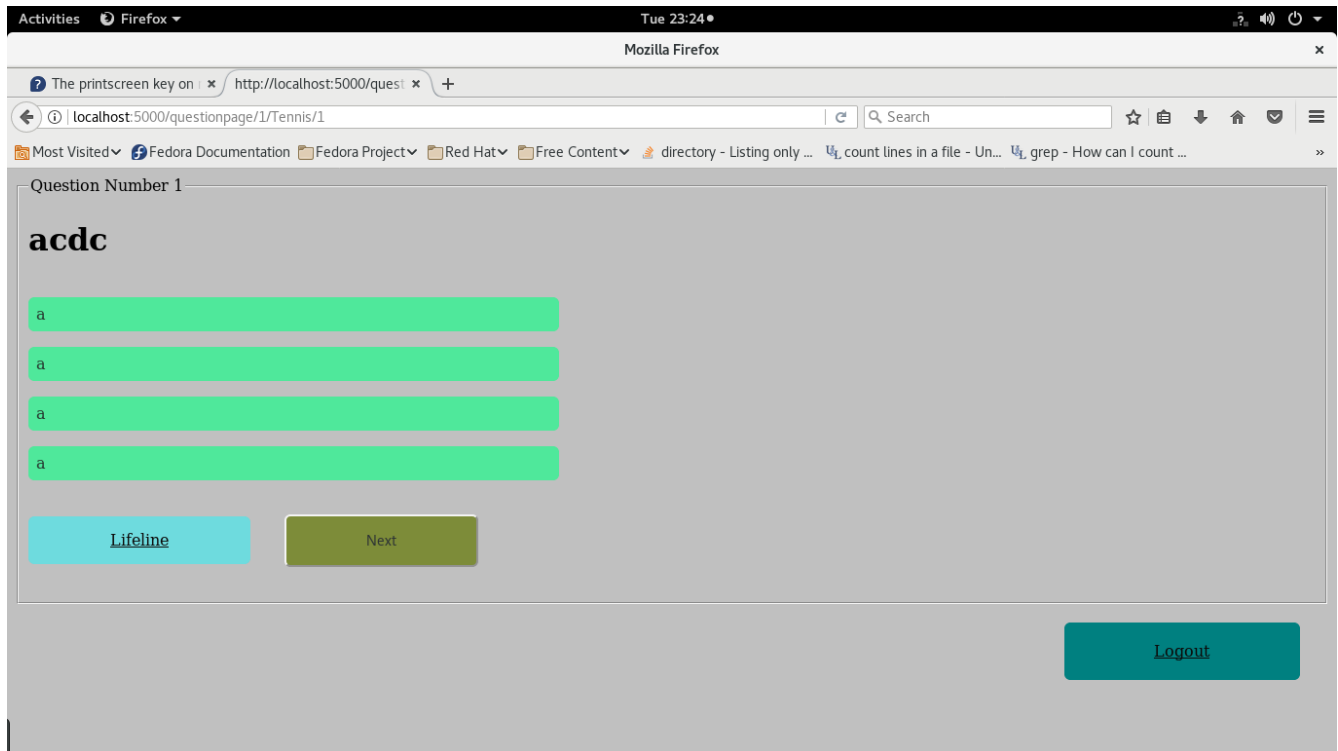

GOOGLE ANALYTICS GRAPH:

At the end of the quiz, you can not only view the leaderboard but also, your performance in the quiz with respect to others in a PIE CHART!! We used the google analytics graph for it and sent the data of the quiz to the html file and rendered it using Jinja2.

LIFELINES: Oh also, there is a 50-50 LIFELINE which you can use to narrow your options down to two. But a correct answer would only fetch you 0.5 marks.

The lifeline part was a little tricky to implement. We had to go back into the database, fetch the correct answer and any other one, and display them only.
`obj= Quizzes.query.filter_by(id=ctr).first()`

After using lifeline:
